F.J. Orlich La Giorgia Mill

West Valley

“La Reserva Presidente” is a blend specially prepared by our Costa Rican office, Cafinter S.A. Cafinter was established in 1989 originally as an export business that has since developed an integrated milling - export operation. It manages three mills in the country and each mill is located near the farms in which it sources. During the 1800's people moving from the Central to the West Valley brought coffee cultivation and established the towns of San Ramón, Palmares, Naranjo and Grecia. Coffees are selected exclusively from the West Valley region of Costa Rica and processed at the F.J. Orlich La Giorgia Mill.

“La Reserva Presidente” is named after the former owner of F.J. Orlich La Giorgia Mill, Mr. Francisco Jose Orlich, President of Costa Rica from 1962-1966. Before becoming President of Costa Rica, Mr. Orlich started a coffee supply business which later grew into one of Costa Rica's largest coffee mills.
