

Costa Rica SHB EP

Finca Monteflores Micro-Lot

CHOCOLATE – LAVENDAR – PINE

LATIN AMERICA

Producer: Oscar Flores

Processing: Fully washed

Region: Sarchi, Valverde Vega,
West Valley

Elevation: 1700 masl

Cultivar: Villa Sarchi

Harvest: December - January

Finca Monteflores

Sarchi, Valverde Vega, West Valley

Finca Monteflores has an interesting history- the original land owner was the first to plant the area with coffee in the early nineteenth century.

The farm is located in the town of Sarchi, in the West Valley region of the country. Farm owner Oscar Flores divided his land into different plots so he could experiment with planting various varieties. This lot is 100% Villa Sarchi variety, a natural mutation of the Bourbon variety, indigenous to the West Valley of Costa Rica.

Coffee cherries are carefully selected and processed in a micro mill located on the farm. Flores has implemented three processing methods, fully washed, honey and natural, in order to further differentiate his coffee. Flores has three sons who help manage the farm and he employs 100 farm workers to give special attention to each plot and harvest cycle.
